

ITIL Intermediate Capability Service Offerings & Agreements

ITIL PROCESSES IN PRACTICE

Course Objective

The 4-day ITIL® Intermediate Capability Service Offerings & Agreements training course fully prepares every participant for EXIN's "ITIL Intermediate Capability Service Offerings & Agreements" certification examination.

ITIL Intermediate Capability Service Offerings & Agreements Processes (SOA):

- Service Portfolio Management
- Service Catalogue Management
- Service Level Management
- Demand Management
- Supplier Management
- Financial Management

Each ITIL Intermediate Capability training course teaches IT professionals how to analyze, manage, organize, apply, monitor and improve the key IT Service Management processes. ITIL Intermediate Capability training courses are very practical with many hands-on assignments and are focused on work-related situations.

Prerequisites

- The ITIL v3 Foundation in IT Service Management certificate or Foundation v2-v3 Bridge is a prerequisite for every ITIL Intermediate training course
- Recommended: at least three years of practical experience in the desired fields of study
- Recommended: Hands-on experience with implementing and practicing ITIL's best practices for at least 6 months after passing for the ITIL Foundation examination
- Recommended: 20 hours of studying the appropriate ITIL literature

Target Audience

- The ITIL Intermediate Capability certification training courses are intended for professionals who will participate in managing, organizing and optimizing the operations of the processes in an IT Service Organization which has implemented, or started to implement, ITIL-based processes
- The target group consists of operational staff and managers wishing to extend their skills in planning, monitoring, reporting and optimizing, related to the processes addressed during the training course.

Duration and Location

- The training course lasts 4 days
- The training course and the EXIN certification examination are conducted at our training facilities or onsite at your own facilities
- Please contact us for the exact location of our open enrollment training courses.

Curriculum

Participant will learn of the Process:

- Service Management as a Practice
- Processes across the Service Lifecycle pertaining to the Capability of Service Offerings and Agreements
- The ITIL SOA while providing Service
- How all processes in ITIL SOA interact with other Service Lifecycle processes
- The processes, activities, methods and functions used in each ITIL SOA process
- How to use the ITIL SOA processes, activities and functions to achieve operational excellence
- Explain how to measure ITIL SOA
- The importance of IT Security and its contributions to ITIL SOA
- Understanding of technology and implementation considerations surrounding ITIL SOA
- Challenges, Critical Success Factors and Risks associated to ITIL SOA

EXIN Certification Examination

- A 1.5-hour **written** multiple-choice exam that is being proctored through EXIN
- Examination is conducted concurrently with the training class
- Our passing rates for this exam are consistently **85% and higher**
